Symposium

Keith Fagnou Organic chemistry Symposium

[Home](#) [About Keith](#) [Speakers](#) [Registration](#) [Program](#) [Accommodation](#) [Info](#) |  

We welcome your interest and invite you to participate in the **Keith Fagnou Organic chemistry Symposium (KFOS)**, to be held **May 5-7, 2010, at the University of Ottawa**. Inspired and organized by the Fagnou Group, KFOS is a celebration of Keith's achievements and the advances in the organic chemistry community at large.

Our goal is to create an opportunity to allow for high calibre research to be presented and shared among students and researchers alike who knew Keith as a mentor, a colleague, a researcher, and as a friend. Keith always put great value in the sharing of research among members of the chemical community and it is in this spirit that the "Fagnou Factory" hosts KFOS.
